

4G įjungimas - Huawei - Instrukcija

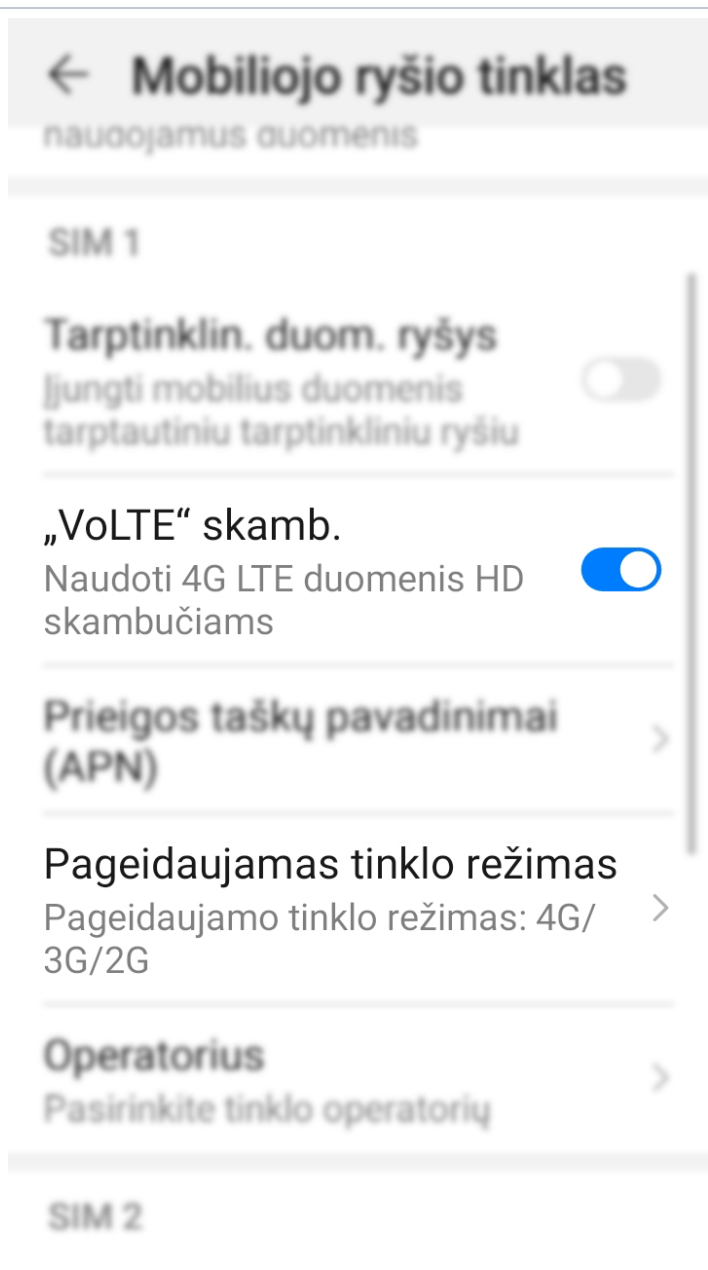

| Paaiškinimas | Momentinė ekrano nuotrauka |
|--|--|
| <p>Telefono nustatymuose pasirenkame <i>Belaidis ryšys ir tinklai</i>.</p> |  <p>The screenshot shows the 'Nustatymai' (Settings) application on a Huawei phone. The status bar at the top indicates 'Telia LT', signal strength, Wi-Fi, and the time '10:23'. The main menu includes: 'paskyrą' (Email), 'Belaidis ryšys ir tinklai' (Wireless & Networks), 'Įrenginio ryšys' (Device Connections), 'Pradžios ekranas ir fonas' (Home Screen & Wallpaper), 'Ekranas' (Display), and 'Garsai' (Sound). The 'Belaidis ryšys ir tinklai' option is highlighted with a blue bar and a Wi-Fi icon.</p> |

Pasirenkame skiltį *Mobiliojo ryšio tinklas*.

Atsidariusiame lange:

- Ijungiamo *VoLTE skamb.*;
- Pasirenkame *Pageidaujamas tinklo režimas.*
